

Training Issues

Kristina Grabbe

CHCT Meeting

Lusaka, Zambia

January 29, 2009

CDC Training Curriculum

- Standard training materials
www.cdc.gov/nchstp/od/Gap/CHCTintervention/
- Materials have been pilot tested in many countries
- Adapting materials to country context
 - Train group with standard materials
 - Get feedback from group and incorporate
 - Cultural issues
 - Epidemic issues
 - Approval needed from MoH?
- No need to start over!

Training Approaches

- CHCT as stand alone training materials
- Incorporate into existing trainings
 - VCT
 - PMTCT
 - ART?
 - Home based care?
 - Home-based CT training?
 - PWP?

Training Plans

- Who should be trained?
 - All counselors
 - Combined groups (incl. counselors, managers, trainers)
- Training providers
- Training trainers
 - Should be trained as “participants” before “trainers”
- Observed practice
 - Establish plan for observed practice to ensure quality service delivery
